

Sudan Aquatics Federation

National strategy 2022-2024

Based on the Federation's statute, the regulations issued there under, and the world Aquatic's statute.

Based on the recommendation of the Development Committee, below is the vision, goals, and strategic plan of the Union for the period from 2022.

Our Vision

That society contribute to the development of water sports, and that Sudanese water sports have distinguished international achievements

Our mission

Enabling athletes to achieve distinguished achievements internationally and activating the role of partners and society in building the sports pyramid for aquatic sports

Objectives:

The Sudanese Swimming Federation is considered one of the most important sports federations because of the great services it provides to society in its various aspects, the most important of which is self-preservation and reducing heart-breaking drowning through its numerous programs in this field and in various bodies of water.

How much? It is nice that everyone who belongs to this large entity feels proud and proud to serve his community, in addition to the honorable achievements that are achieved in the name of our dear homeland.

Outline of our Strategic plan:

- 1_ striving to achieve the goals of the world Aquatics
- 2- Publishing and developing the activity in all technical, organizational and financial aspects
- 3- Organizing training, referees, players' courses and their continuous development
- 4- Consolidating the concept of sound management and financial purity
- 5- Maintaining the local and international rules and principles of the activity
- 6- Paying attention to the players and making them the focus of work in the main federation

The organizational plan for the federation's work for the session 2022-- - 2026

- 1- Organizing local tournaments on a regular basis for all age groups and participating in all international competitions and tournaments.
- 2- Raising players' abilities through internal and external camps
- 3- Raising coaches and officials capabilities through courses, workshops and development programs.
- 4- Raising awareness of the seriousness of violations such as doping, bullying, exploitation in all its forms, and discrimination

5- Rationalizing the concept of good management, financial purity, and all methods of sound governance

6- Activating and creating partnerships with internal and external stakeholders to achieve goals

The regulations and programs issued shall regulate the details of this plan and the objectives mentioned above

Challenges to overcome

- Availability of funding from private sector
- Availability of facilities
- Availability of local technical competencies
- Mindset and mentality of swimmers and parents
- Press coverage is limited and priority is for football
- Focus on fundamentals and basics of swimming
- Spread the sport of swimming through the clubs and activate their participation
- Establish a framework of enabling the clubs to utilize the limited facilities through sharing schemes
- Participate in selected events with selected numbers of swimmers
- Attract and retain swimmers through performance schemes
- Develop local events to stimulate participation
